What is your goal for the 2023 umpiring season?

HDNA have a program of approximately 6 weeks to achieve a white bib, 6 weeks to achieve an orange bib. This is dependent on each individual. On occasions this can be achieved faster and on others it may be over a number of seasons. Umpiring is a beneficial skill for young people to learn a tactical area of the sport. It is a discipline that may provide confidence and another pathway to enjoy sport. When minors are being trained it is important that they have support from their guardians on the sideline.
